

East Lake Pediatrics Announces Grand Opening at New Trinity Location

East Lake Pediatrics has announced the grand opening of its newly constructed Trinity Location. The new Pediatric Center is an upscale medical office conveniently located at 2137 Little Road next to Mitchell High School in the Premier Medical Center. It has a kid friendly atmosphere and a separate newborn waiting room that parents and their newborns are welcome to use while waiting to be seen by the doctor or for feedings.

The opening of the new office is another way that East Lake Pediatrics will have a positive influence on the health care of north Pinellas and west Pasco County residents. Offering flexible hours with increased appointment times and choices of locations for client convenience, East Lake Pediatrics focuses on patient care that is both caring and supportive.

East Lake Pediatrics recently became a CLIA certified laboratory, which enables them to perform a wide variety of diagnostic studies in the office. Additionally, their state of the art “paperless” office utilizes electronic medical records allowing the doctors to send most prescriptions to many local pharmacies electronically so they are ready to be picked up on the way home from the office visit. Routine refills are also handled this way making it easier for parents to make sure their children have the medicine they need.

Mike Jordan, M.D., CEO and Founder of East Lake Pediatrics, said, “This is a very exciting time in East Lake Pediatrics’ history. We’ve enjoyed a long standing tradition of serving our communities with pediatric health services designed to meet those needs at our north Pinellas location.” He added, “Now, opening the doors to our new Trinity building, we expand our reach to provide outstanding pediatric care that is personalized to the needs of patients and provide patient care services to children of all ages.”

The addition of the Trinity office and a new Advanced Registered Nurse Practitioner will increase East Lake Pediatrics’ available appointment times by 60%. The Trinity office hours are 8 am – 5 pm Monday through Friday and the new office hours at East Lake are currently 12 pm – 6 pm Monday through Thursday and 12 pm – 5 pm on Fridays with plans for the East Lake office hours to be expanded in the near future. As always, at each office same day sick visits are available as well as timely appointments for school and sports physicals.

Dr. Jordan grew up in Palm Harbor and graduating from the University of Florida and the George Washington University College of Medicine, he completed his pediatric training at the University of Florida Health Science Center in Jacksonville. Prior to founding East Lake Pediatrics, P.A. in 2004, he worked as a pediatric hospitalist.

Dr. Harbage, a graduate of the University of Tennessee and University Of Health Sciences - College Of Osteopathic Medicine in Kansas City, MO, joined East Lake Pediatrics in

2006 after completing her pediatric training at the University Of South Florida All Children's Hospital in St. Petersburg.

East Lake Pediatrics is excited to announce the addition of Jennifer Hammond, A.R.N.P. as a provider for the Trinity office. Jennifer has spent the past seven years working at All Children's Pediatric Gastroenterology Clinic. She is not only well versed in general pediatric care but also has expertise in dealing with GI disorders such as feeding problems, constipation, and abdominal pain just to name a few.

East Lake Pediatrics expansion represents a continuum of care serving newborn babies up to teens, enabling easy access to some of the region's most qualified physicians, nurses and support staff. For more information on the grand opening or to schedule an appointment at East Lake Pediatrics call (727) 772-1452 or (727) 372-6760.
